MOHAMMAD EHTESHAM

Java Full Stack Developer · Python · Spring Boot · Next.js

+91 8604343153 | infoehtesham7886@gmail.com | github.com/ehte-01 | linkedin.com/in/mohammad-ehtesham-7475a532a

SUMMARY

Full Stack Developer with hands-on experience building and deploying multiple production-ready web applications using Java, Python, and modern web technologies. Strong foundation in Data Structures and Algorithms with practical experience in backend systems, APIs, and deployment workflows. Proven ability to ship real-world projects using scalable architectures.

PROJECTS

Swasth AI — Healthcare Platform · *Next.js ·TypeScript · Python (Flask) · Supabase · Grok API · Vercel* Live Demo | GitHub

- Built a multilingual AI health platform supporting voice, text, and image-based queries.
- Integrated external APIs for real-time symptom analysis, doctor discovery, and health insights.
- Designed backend services and deployed full-stack system using Vercel and PostgreSQL.
- Implemented features like health records storage and appointment booking system.

StreetCart — Hyperlocal Marketplace · *Next.js · Spring Boot · MySQL · Python ML · REST APIs*

- Designing a hyperlocal vendor platform with AI-powered outfit recommendation and automated 3D virtual try-on using generative techniques.
- Building scalable REST APIs and optimized relational DB models to handle high-volume product catalog and order management workflows.

AI College Monitoring System · *Python · OpenCV · Crowd Detection* GitHub

- Developed a campus crowd monitoring system using Python and OpenCV for AI-powered detection.
- Designed for real-world campus deployment with automated analytics and alerting.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL/NoSQL
Frontend & Full Stack: Next.js, ReactJS, HTML5, CSS3, TypeScript
Backend: Spring Boot 3, Spring Data JPA, Hibernate, REST APIs
AI / ML: Prompt Engineering
Databases & Tools: MySQL, Git, GitHub, Vercel.

ACHIEVEMENTS & CERTIFICATIONS

- Amazon ML Summer School 2024 — Selected (competitive national-level program).
- Naukri Campus Young Turks — 95.27 Percentile.
- Adobe India Hackathon — Round 1 Qualified.
- Hack With Uttar Pradesh — State Level Participant.
- Oracle Certified Professional — OCI 2025 Generative AI Professional (102984817OCI25GAIOCP) · Valid Oct 2027
- HP Life: AI for Beginners, DS & Analytics, AI for Business, Cybersecurity.
- Machine Learning using Python — SimpliLearn.

EDUCATION

GL Bajaj Institute of Technology & Management *2023 – 2027*
B.Tech — Computer Science and Engineering with Artificial Intelligence and Machine Learning
